

Organic Fertilizers & Amendments

Bumper Crop Soil Conditioner is an all-organic soil builder high in organic nutrient content. It is formulated with ingredients such as forest humus, manures, shells, pH adjusters, and a wetting agent.

Gardeners Gold Soil Conditioner is a Premium all natural potting soil including forest humus, composted manures, bark fines, composted shell fish shells, and other natural ingredients.

Organically based **Daniel's Plant Food** is a 10-4-3 liquid formulation derived from soybean oil. This professional mix is designed to meet the feeding requirements of all plants, is non-toxic, environmentally friendly and easy to use.

Espoma Greensand is an exceptional soil conditioner. It is mined from natural deposits of marine origin. Greensand loosens clay soils, binds sandy soils, and increases the water capacity for all soils. It contains the essential nutrient potassium (all natural potash). **Espoma** offers **Garden Lime, Soil Acidifier, Garden Gypsum, Dried Blood, Bone Meal,** and **Triple Phosphate** all for organic gardening.

Espoma Plant Tone is all natural and **Organic**. This fertilizer (5-3-3) is great for ornamentals, lawns, and fruits and veggies. The natural organics in Plant Tone break down gradually, supplying the nutrients necessary for superior plant growth but also help condition the soil and encourage beneficial soil microbes and earthworms.

Espoma Garden Tone is rich in natural organics and contains all 15 essential nutrients. This fertilizer (4-6-6) provides immediately available plant food as well as the benefits of slower acting natural organics.

Espoma Tomato Tone also is rich in natural organics, containing all 15 essential nutrients, including those that aid in preventing Blossom end rot on Tomatoes. The fertilizer ratio of this plant food (4-7-10) will not force rapid foliage growth at the expense of blooms and tomato yield.

Pro Mix – All natural ingredients with Mycorrhizae. Ideal for organic growing. Choose from vegetable & herb, Potting & Container or an all purpose mix.

Dr Earth Organic Potting & Planting Mix - Both contain probiotics, beneficial soil microbes plus mycorrhizae.

Espoma Potting Mix – A rich premium blend of the finest natural ingredients. Contains a blend of endo and ecto mycorrhizae.

Fungicides

Serenade Disease Control is acceptable for organic production by the EPA through the [National Organic Program](#) of the USDA and is also listed by the [Organic Materials Review Institute](#) (OMRI). Serenade Garden provides protection against a broad spectrum of the most common fungal and bacterial garden diseases, yet is completely non-toxic to bees and beneficial insects. It is so safe you can confidently harvest and eat fruits and vegetables the very same day they are treated.

Earth Tone Garden Fungicide - For use on flowers, fruits & vegetables. Can be used for early and late blight on tomatoes. Controls powdery mildew, black spot & rust.

EcoSmart Garden Fungicide: An organic fungicide that is safe to use around children and pets and won't harm the environment. For roses, flowers & shrubs. Prevents and controls Black spot, Rust, powdery mildew, petal blight and other common plant diseases.

Greenlight Rose Defense – Three products in one. Multipurpose fungicide/insecticide/miticide. Kills eggs, larvae, and adult stages of insects. Prevents fungal attack of plant tissues on roses.

Bonide Copper Fungicide- controls disease on potatoes, tomatoes, fruits, flowering shrubs and shade trees.

Sulfur Fungicide – Controls rust, leaf spot and powdery mildew on fruits, vegetables and various ornamentals.

Dr Earth Organic Fertilizers – Contains a unique blend of superior organic-based ingredients that actually invigorates and improves the biological life in your soil. Comes in many different varieties such as Fruit Tree, Tomato & Veggie, Roses, Acid Loving, & Bloom Booster

Organic and Natural Insect Control Products
