Organic Fertilizers & Amendments

Bumper Crop Soil Conditioner is an all-organic soil builder high in organic nutrient content. It is formulated with ingredients such as forest humus, manures, shells, pH adjusters, and a wetting agent.

Gardeners Gold Soil Conditioner is a Premium all natural potting soil including forest humus, composted manures, bark fines, composted shell fish shells, and other natural ingredients.

Organically based **Daniel's Plant Food** is a 10-4-3 liquid formulation derived from soybean oil. This professional mix is designed to meet the feeding requirements of all plants, is non-toxic, environmentally friendly and easy to use.

Espoma Greensand is an exceptional soil conditioner. It is mined from natural deposits of marine origin. Greensand loosens clay soils, binds sandy soils, and increases the water capacity for all soils. It contains the essential nutrient potassium (all natural potash). **Espoma** offers **Garden Lime, Soil Acidifier, Garden Gypsum, Dried Blood, Bone Meal, and Triple Phosphate** all for organic gardening.

Espoma Biotone Starter Plus is an all-natural plant food containing mycorrhizae and beneficial bacteria. It helps to prevent transplant loss, stimulates root growth, promotes bigger blooms and improves soil structure.

Espoma Plant Tone is all natural and Organic. This fertilizer (5-3-3) is great for ornamentals, lawns, and fruits and veggies. The natural organics in Plant Tone break down gradually, supplying the nutrients necessary for superior plant growth but also help condition the soil and encourage beneficial soil microbes and earthworms.

Espoma Garden Tone is rich in natural organics and contains all 15 essential nutrients. This fertilizer (4-6-6) provides immediately available plant food as well as the benefits of slower acting natural organics.

Espoma Tomato Tone also is rich in natural organics, containing all 15 essential nutrients, including those that aid in preventing Blossom end rot on Tomatoes. The fertilizer ratio of this plant food (4-7-10) will not force rapid foliage growth at the expense of blooms and tomato yield.

Miracle-Gro Organic Choice Blood Meal is an organic non-cow Nitrogen Supplement. (12-0-0)

Miracle-Gro Bone Meal is an organic non-cow Phosphorus supplement. (6-9-0).

RainGrow Natural Organic Fertilizer (4-2-3) Derived from concentrated organic compost emulsion and a unique blend of natural plant extracts to create the perfect all purpose liquid concentrate for all your plants, both indoors and out. Raingrow will make your plants thrive while adding only natural, organic components to the soil and environment.

RainGrow Bloom-A-Long (0-12-0) For brilliant blooms and robust transplants, this liquid bone meal truly fits the bill. Unlike granular bone meal that takes months to break down, Bloom-A-Long's unique formulation gives plants immediate access to phosphorus, a key ingredient in the establishment of root development and prolific blooms.

Fungicides

Serenade Disease Control is acceptable for organic production by the EPA through the [National Organic Program](#) of the USDA and is also listed by the [Organic Materials Review Institute](#) (OMRI). Serenade Garden provides protection against a broad spectrum of the most common fungal and bacterial garden diseases, yet is completely non-toxic to bees and beneficial insects. It is so safe you can confidently harvest and eat fruits and vegetables the very same day they are treated.

Knock out powdery mildew, blackspot and rust safely with **GreenCure Fungicide**, certified for organic gardening by the USDA. This effective fungicide is odorless and edible crops can be harvested within an hour after spraying. That's a fungicide you can feel good about. Unlike other fungicides, **GreenCure®** is not a toxic chemical. Its active ingredient, potassium bicarbonate, is commonly used in food products, but in this patented formula it is a highly effective, more sensible fungicide.

Made with Certified Organic Cinnamon Oil, the **Flower Pharm** does a great job when used weekly to prevent Powdery Mildew, control Rusts, blackspot and more. Protect your garden from horticultural fungi of all types and garden pests with 100% pure, all-natural **Veggie Pharm** fungicide.

Organic and Natural Insect Control Products

Earth-tone Insect Control kills insects quickly by using Botanical products; it is made from Natural Pyrethrins & Canola Oil. It kills the adult, larvae, & egg stages of insects on outdoor and indoor plants. Can be used up to day of harvest.

Earth-tone Insecticidal Soap is approved for organic gardening. Aphids, whiteflies, and mites are controlled on contact. The Insecticidal soap is made from plant oils - not animal fatty acids. It works fast; you will see results in hours.

The active ingredient in **Captain Jack's Deadbug Brew** is Spinosad a leading pesticide used agriculturally worldwide. This organic product derived from soil dwelling bacterium, controls worms, leafminers, borers and other common garden pests. Treat your fruits, veggies, nuts and ornamentals with this safe and effective product.

Ortho Ecosense Brand Insecticidal Soap is another safe control of many pest for vegetables, fruits and ornamentals.

Concern Diatomaceous Earth kills “creepy crawlies” such as cockroaches, ants, fleas silverfish and earwigs. This 100% organic insect killer is made of finely ground fossils of prehistoric fresh water diatoms. Kills household and garden pests within 48 hours of contact.

Sluggo Slug & Snail Bait The Organic Materials Review Institute lists Sluggo snail and slug bait for use for organic gardening. Sluggo contains naturally occurring iron and phosphate and is safe to use around pets and wildlife.

Other Organic & Natural Products

Deer Solution-Deer & Rabbit Repellent is an all-natural, systemic product which leaves no film of any kind, smells great, contains no animal wastes, is long lasting (100 days), and can be sprayed year-round.

Preen Vegetable Garden Weed Preventer This is an organic product that is safe for use around children and pets. Annual weeds are prevented from growing in vegetable gardens, flowerbeds, around trees, shrubs, and ground covers for up to 4 to 6 weeks. The active ingredient is Corn gluten meal that has a high level of protein that inhibits the growth of seeds.

Earth-tone 4n1 Weed Control kills weeds, grass, moss & algae using fatty acids and a food safe synthetic anti-sprouting agent. Prevents re-growth for up to 6 weeks.

Earth-tone 3n1 Disease Control kills fungus, insects, & mites using Sulfur & natural Pyrethrins. Controls disease including black spot & powdery mildew.

Earth-tone Moss Control can be safely used on patios, playgrounds, and lawns to control moss, algae and lichens.
